

Super sized entertainment – the 18.4” Satellite P500

Toshiba’s multimedia flagship laptop for the demanding power user

Satellite P500

Neuss, Germany, 3rd September 2009 - Toshiba Computer Systems Division, a division of Toshiba Europe GmbH, today introduced the Satellite P500, the latest member of its Satellite product range. With its large 18.4” screen size, embedded TV-tuner and DVD upconversion application, Resolution+, the new Satellite P500 is a real entertainment flagship. It is targeted at multimedia enthusiasts who want to have the crème de la crème; or simply modern, style-conscious consumers who value the extra-large screen and power for demanding multitasking. The Satellite P500 will be available during the fourth quarter 2009 throughout Europe, Middle East and Africa.

Let me entertain you!

High Definition (HD) is a key concept for the Satellite P500: Content is displayed on the 18.4" TruBrite® LCD screen with 16:9 aspect ratio and a resolution of 1680 x 945 (HD) or 1920 x 1080 (Full HD). The Satellite P500 comes with a Blu-Ray ReWritable drive¹ which supports Blu-Ray ROM, BD-R and BD-RE and DVD SuperMulti DL +/RW, or a slot-loading DVD SuperMulti drive¹, together with Resolution+, an algorithm developed by Toshiba to upconvert videos and DVDs with standard definition quality to near high definition level in realtime, with improved edge detail and texture. High-end Harman Kardon® stereo speakers provide a corresponding vibrant sound experience. A High Definition Multimedia Interface (HDMI) enables high quality multimedia data transmissions between the laptop and a second HDMI device like a TV set.

Life is easy!

Thanks to the REGZA-Link, a HDMI CEC (High-Definition Multimedia Interface Consumer Electronics Control) interface, the Satellite P500

Facts & Figures¹

- 18.4" TruBrite® LCD screen with 16:9 aspect ratio and a resolution of 1680 x 945 (HD) 16ms or 1920 x 1080 (Full HD) 8ms
- Resolution+ algorithm for DVD realtime upscaling
- Embedded TV tuner for analog or digital DVB-T reception
- High-end Harman Kardon® stereo speakers
- Remote controlled operation
- Blu-Ray ReWritable drive supporting Blu-Ray ROM, BD-R, BD-RE and DVD SuperMulti DL +/RW
- NVIDIA® GeForce® G210M with 512 MB VRAM or a NVIDIA® GeForce® GT 230M with 1GB VRAM

can be operated with a remote control that is normally used for other consumer electronic devices. Eight feather touch buttons give direct access to often used audio/video functions and also to Toshiba's Eco Utility, which makes reduction of power consumption easy. The Satellite P500 features a fullsize keyboard with a numeric keypad and a touch Pad with Multi-Touch Control which facilitates scrolling and other often used operating functions. The Toshiba ConfigFree™ facilitates wireless network configuration and online access via the embedded WLAN interface (802.11 a/b/g/n-draft) with diversity antenna or via Bluetooth 2.1 + EDR.

Black Beauty

To meet customers' different design and price expectations Toshiba gives consumers the choice of two variations: One comes with a Precious Black LCD cover and LCD mask, a black hinge and a silver painted rim. Adding to its sophisticated allure, a premium version alternatively offers an edge-to-edge display (Flush Screen) with a glass mask while rim and hinge are made of chrome, further enhancing the elegant design. The backlit keyboard with flat keys in a matt black finish transforms the Satellite P500 into an elegant multimedia flagship.

The right power for the job¹

The Satellite P500 will be powered by the latest Intel Core 2 Duo processors , offers up to 8 GB DDR2 RAM memory and and supports up to two HDDs with a capacity of up to 1TB. For advanced graphics performance the Satellite P500 is equipped with the latest generation of NVIDIA graphic chipsets.

Peripheral devices connect via three USB 2.0 ports or via a eSATA/USB combo port supporting USB Sleep-and-Charge to charge mobile devices even if the laptop is switched off. An Express Card slot, a 5-in-1 Bridge Media port, S/P-DIF. an interface for

¹ configuration depending on local specification

transmission of digital audio data and FireWire further increase the connectivity range of Satellite P500.

Sustainable and environment friendly

As a responsible global corporate citizen, Toshiba ensures that all laptops are RoHS-compliant, effectively reducing the environmental impact by restricting the use of lead, mercury and certain other hazardous substances. Additionally, the Toshiba Eco Utility with a dedicated Toshiba Eco Utility button for easy access to the application help to reduce power consumption. The new Toshiba Satellite P500 is ENERGY STAR® 5.0 qualified.

About Toshiba Europe GmbH

Toshiba Europe GmbH (TEG) is a fully owned subsidiary of Toshiba Corporation, Tokyo, a global corporation with more than 130 years of company history. Toshiba is one of the largest IT and electronics companies in the world. Headquartered in Neuss, Germany, TEG is comprised of four business divisions: Computer Systems, Storage Device Products, Consumer Products and Electronic Systems Operations. Together, these divisions provide product offerings including industry leading portable computers and other mobile products and solutions, projectors, HDDs, DVDs, LCDs, TVs and electronic office equipment.
